

Mission and Vision Statements

for the International Society for Burn Injuries (ISBI) 2012-2016 Nursing Committee

Improving the nursing care of burn-injured patients around the world by generating and disseminating knowledge.

The Nursing Committee of the ISBI is composed of burn nurses from many areas of the world. Aside from supporting and promoting the mission of the ISBI, the committee strives to maintain communication and collaboration specifically related to the delivery of nursing care to burn-injured patients.

Mission

The mission of the ISBI Nursing Committee is to promote professional development within the global burn nursing community by generating and disseminating scientific knowledge and educational materials related to the nursing care of burn-injured patients. Specific to this mission, the Nursing Committee promotes excellent burn nursing care through education and research and encourages and supports nurse leaders in burn care.

Vision

The vision of the ISBI Nursing Committee is to create current and relevant resources from which burn nurses and nurse leaders may access. This virtual resource library will be maintained and accessible through the ISBI website.
