Dr. Jaideep Banerjee

Lunch will be provided

Live translation into Spanish and Portuguese will be available

Dr. Paul Glat

MD, FACS
Chief of Plastic Surgery
St. Christopher's Hospital,
Philadelphia, USA

Dr. Glat is a Board-Certified Plastic and Reconstructive surgeon from the Philadelphia area. He attended medical school at New York University (NYU) where he also completed residency training in General and Plastic Surgery.

He moved to Philadelphia for a fellowship in Craniofacial surgery at the University of Pennsylvania, then joined the faculty at Drexel University College of Medicine where he is a Professor of Surgery.

He is also the Chief of Plastic Surgery at St. Christopher's Hospital where he is the Director of the Burn Unit.

Dr. Glat is very active in clinical research, with a special interest in burns and wound care. He has published extensively on these topics and written several chapters on wound healing and wound care.

Dr. Glat has been using SANTYL[®] Ointment, VERSAJET[®] Hydrosurgery System and other S+N products clinically for over 18 years, and can discuss their use in burns, chronic wounds, trauma and other indications.

Jaideep Banerjee

PhD, MSL-BC
Senior Manager, Medical Science
Liaisons and Clinical Strategy,
Global Clinical & Medical Affairs,
Smith+Nephew

Jaideep Banerjee received his PhD in Molecular, Cell and Developmental Biology from the Ohio State University in Columbus, Ohio. He completed his post-doctoral training at the US Army Institute of Surgical Research in San Antonio, Texas and at George Washington University in Washington, DC.

Over the last 15 years, Dr. Banerjee has been involved with preclinical and clinical research on various aspects of wound healing, and is an editor for the journal *Advances in Wound Care*.

He has worked as a consultant with Walter Reed Army Institute of Research and with Mike O'Callaghan Military Medical Center.

Currently, Dr. Banerjee leads the Medical Science Liaisons team for Advanced Wound Management and Global Clinical Strategy for Biologics at Smith+Nephew.
